2014 Spring Career Fair Guide

Michigan Tech Career Services Partners

If you see any of our Career Services Partners at this year’s fair, stop by and say “Thanks!”

For more information about the Career Services Partners Program contact Jim Desrochers (jtdesroc@mtu.edu) or call 906-487-2313.
Co-Op & Full-Time Employment Opportunities Available

At Mercury Marine, we don’t just make the best marine products in the world. We also have the best people to engineer, build, support, sell, and service them.

Join the team that helps make Mercury the leader in marine technology.

Check out our job postings at http://www.brunswick.com/careers

If we can move a boat through the water at over 100 mph...

Just imagine what we can do for your career!

Aarrowcast, Inc.

Aarrowcast, Inc. is a modern 210,000 square foot foundry situated on 40 acres in Shawano, Wisconsin. 85 million pounds of ductile and gray iron castings are provided yearly to over 100 customers in various industries including government/defense, farm and heavy truck equipment, pumps, valves, and compressors.

The original 45,000 square foot foundry was built in 1978. The original two molding lines remain today: a 16 x 20 B & P Roto-Matchblowmatic and a 36 x 40 British Molding Machine (BMM). In 1997, a 165,000 square foot expansion added a 60 x 85 Georg Fischer molding line, the largest green-sand molding line in North America. This continued growth has lead to Aarrowcast’s involvement with the Shawano County Chamber of Commerce and New North, Inc., to promote even further development.

Alcoa, Inc.
Alcoa is the world’s leading producer and manager of primary aluminum, fabricated aluminum and alumina facilities, and is active in all major aspects of the industry. Alcoa serves the aerospace, automotive, packaging, building and construction, commercial transportation, and industrial markets, bringing design, engineering, production, and other capabilities of Alcoa’s businesses as a single solution to customers.
Since it opened in 1948, Alcoa’s Davenport, Iowa aluminum facility has been at the forefront of American manufacturing. Nestled on the banks of the Mississippi River in Iowa, the plant employs 2,200 people and is a focal point of the global aluminum industry, with 25 percent of revenues coming from exports. Through continued modernization, including a $200 million investment over the past decade alone, Davenport has maintained its position as the world’s premier aerospace supply plant and is today the hub of Alcoa’s $3 billion aerospace business.

- Electrical Engineering
- Computer Engineering
- Mechanical Engineering
- Electrical Engineering Technology
- Mechanical Engineering Technology

Headquartered in West Chester, Ohio (Greater Cincinnati), AK Steel is a leader in the production of flat-rolled carbon, stainless and electrical steel products, operating plants in Indiana, Kentucky, Ohio and Pennsylvania.

www.aksteel.com
American Transmission Company is the first for-profit, transmission-only company. As a business, we own, plan, maintain, monitor and operate electric transmission assets in portions of Wisconsin, Michigan and Illinois.

More important than being the first, is being the best. We have set out to define what a good transmission company can do for our customers. By operating well, striving to provide exemplary customer service, planning and constructing new facilities to meet customer needs and rewarding our investors with a fair return, ATC will remain at the top of this new business.

In the transmission business, we bring together those who create power with those who flip the switch. Our transmission system enables energy producers to deliver electric power to their end users 24 hours a day, seven days a week. Our system currently includes approximately 8,600 circuit miles of high-voltage lines and approximately 450 substations owned by ATC wholly or in part. It connects local energy users to power plants located across the entire eastern United States and Canada.

ArcelorMittal is the world’s leading steel and mining company. Guided by a philosophy to produce safe, sustainable steel, it is the leading supplier of quality steel products in all major markets including automotive, construction, household appliances and packaging. ArcelorMittal operates in 60 countries and employs about 245,000 people worldwide.

ALLETE (NYSE: ALE) is well-positioned as a reliable provider of competitively-priced energy in the upper Midwest, and has a strategic investment in the American Transmission Company. ALLETE’s Minnesota Power electric utility serves 144,000 residents, 16 municipalities and some of the nation’s largest industrial customers. Other businesses include BNI Coal in North Dakota; ALLETE Clean Energy, a developer of energy projects with limited environmental impact; ALLETE Properties, which owns 10,000 acres of real estate in northeast Florida; Superior Water, Light & Power in Superior, Wisconsin; and ALLETE Renewable Resources, which operates and maintains wind generation facilities in North Dakota for ALLETE’s utility and nonutility companies.

Alliance Laundry Systems, LLC is ideally located in a beautiful, recreationally rich, and family friendly environment that offers a wealth of home purchase options that allow you to have a much better work/life balance than you may have today. Our office environment is team-based and our commercial laundry is recession resistant.

Alliance Laundry Systems offers a competitive salary and benefits package to include 6% 401(k) Match, Tuition Reimbursement, Company-Paid Dental, Company-Paid Disability, and much more. Alliance Laundry Systems LLC is an Equal Opportunity/Affirmative Action Employer.

American Transmission Co.
Step into a high voltage career

Be part of an energizing workplace...
ia national energy leader, growing business and an environmental frontrunner.

Check out our internship, co-op and career opportunities:

www.atcllc.com/careers

Helping to keep the lights on, businesses running and our employees energized.

American Transmission Co. is a Wisconsin-based company that owns and operates the electric transmission system in portions of the Upper Midwest. We have Wisconsin offices in Pewaukee, Madison, De Pere and Kingsford, Mich.

ATC is an equal opportunity employer functioning under an affirmative action plan. We encourage minorities, women, covered veterans and individuals with a disability to apply.

You + Boldness = The Future of Steel

Boldness changes everything. At ArcelorMittal, the world’s leading steel and mining company, boldness transforms ideas into actions. With a presence in more than 60 counties and industrial footprint in over 20 counties, our innovations transform the infrastructure of the modern world – from cars and appliances to sporting stadiums and skyscrapers.

Today, our steelmaking is cleaner, safer and relies on cutting-edge technologies and a highly skilled workforce. We are looking for the best and brightest engineering minds to lead our company into the future.

Transform your tomorrow. Join us to build your future in steel.

AvL is the world’s largest independent company for the development of powertrain systems with internal combustion engines as well as instrumentation and test systems. AvL is acting in the following scopes of business:

**Development of Powertrain Systems:** AvL develops and improves all kinds of powertrain systems and is a competent partner to the engine and automotive industry.

**Simulation:** In addition AvL develops and markets the simulation methods which are necessary for the development work.

**Engine Instrumentation and Test Systems:** The products of this business area comprise all the instruments and systems required for engine and vehicle testing.

Axalta Coating Systems

Singular focus on providing brilliant coatings sets us apart. Axalta Coating Systems is a leading global company dedicated solely to the development, manufacture and sale of liquid and powder coatings. We serve customers in the automotive, transportation, general industrial and architectural and decorative sectors. Our innovative products and services include paint, color matching tools, application technologies and customer training and business management systems. Axalta serves more than 120,000 customers in 130 countries and provides customers with a full range of coating systems. The company operates on six continents with 35 manufacturing plants, seven R&D centers and 42 customer training centers.

B & P Process Equipment

At B & P Process Equipment we are responsible for the marketing, engineering and assembling of capital equipment utilized in the production of rubber, plastic, adhesives, composites, and many more, on an international basis.

We’ve taken our traditional strengths in engineering high-precision, high-reliability machines and adding new dimensions in innovation. We are introducing new products, retrofit packages and service programs engineered to solve specific problems, meet unique challenges and seize opportunities! Instead of trying to keep up as your needs change, we’re becoming the driving force of change itself!

The Boldt Company

The Boldt Company opened as a small storefront carpentry shop in 1889 and since then has grown into a leading construction services firm. Now celebrating 125 years of providing value to our customers, we remain committed to our founding principles: honesty, fairness, performance, hard work and a love of what we do. Headquartered in Wisconsin with 14 offices throughout the United States, the firm serves customers in a variety of power, industrial, education, healthcare, commercial and renewable energy markets nationwide. The firm has been recognized as one of the safest companies in America.

Bosch

The Bosch Group is a leading global supplier of technology and services. In 2012, its roughly 306,000 associates generated sales of $67.5 billion. Since the beginning of 2013, its operations have been divided into four business sectors: Automotive Technology, Industrial Technology, Consumer Goods, and Energy and Building Technology. The Bosch Group comprises Robert Bosch GmbH and its roughly 360 subsidiaries and regional companies in some 50 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth.

Boston Scientific

For more than 25 years, Boston Scientific has advanced the practice of less-invasive medicine by providing a broad and deep portfolio of innovative products, technologies and services across a wide range of medical specialties. These less-invasive medical technologies provide alternatives to major surgery and other medical procedures that are typically traumatic to the body. In less-invasive procedures, devices are usually inserted into the body through natural openings or small incisions and can be guided to most areas of the anatomy to diagnose and treat a wide range of medical problems.

Intrepid Control Systems

Intrepid Control Systems (ICS) is a privately held company located in suburban Detroit, Michigan. ICS focuses on providing high technology computer software and hardware services and products. ICS was founded on July 8, 1994. Since then, ICS has completed numerous engineering projects and has developed and is marketing many products. ICS was legally incorporated in the State of Michigan on June 18, 1996.

ICS has developed an impressive client list. Clients range from fortune 100 companies to individual hobbyists. A true international business, ICS has sold its software and hardware products to customers around the globe.

ICS’s service business is highly automotive-oriented. ICS has contributed automotive related technical articles and participates in industry trade shows and seminars. This includes Detroit’s most prestigious and largest trade show, the SAE (Society of Automotive Engineers) International Congress.

Proximity to customers has allowed ICS to provide excellent customer support. With offices in China, Germany, India, Japan and Korea, along with our US headquarters, ICS provides unparalleled support to its clients worldwide.

**Steel Dynamics, Inc.**

Mining Resources, LLC is a mining facility near Chisholm, MN recovering iron ore from tailings deposited from old natural ore mining operations. The tailings are upgraded and shipped to Mesabi Nugget Delaware, LLC near Hoyt Lakes, MN. These iron ore units are then fed into an innovative direct-reduction process that produces 97% pure iron nuggets which are principally used as feedstock for EAF steelmaking in Steel Dynamics, Inc. mini mills.

Cooperative Education Program

The Value of an Undergraduate Co-op

Michigan Tech’s Undergraduate Co-op Program provides students excellent hands-on experience in their academic field.

Students have the opportunity to work for employers in the U.S. and abroad for fall, spring or summer semesters, while earning a great salary and academic credit.

Did you know …
- Co-op experience is considered one of the most valuable qualifications employers seek?
- Some employers offer free or subsidized housing, tuition reimbursement and a company vehicle?
- Our co-op locations span from Alaska to Bolivia and from California to Germany?

A few undergraduate co-op employers:
- Chrysler
- Continental Corporation
- Cummins
- Denso International
- Dow Chemical
- DTE Energy
- FEV, Inc.
- Greenheck Fan Corporation
- Integrys Energy Group
- Kohler
- Mercury Marine
- Nucor
- Polaris Industries
- Union Pacific Railroad

Here’s what some of our co-op students had to say about their experience:
- “A co-op is a glimpse of what your future career may look like.”
- “It may put your graduation date back but the experience is what employers look at, not how long it took to graduate. My co-op experience was the most beneficial step in acquiring my degree.”

QUICK FACTS:

A “co-op”:
- Is a work assignment during the fall or spring semesters (sometimes summer). You earn academic credit and maintain continuously enrolled student status.

An “internship”:
- Takes place during the summer. You won’t earn credit but can gain great experience!
- Career Services can help you find these opportunities!

Co-op basics:
- Interested students apply for available positions, and if offered a co-op opportunity, register with the Co-op Office in Career Services.
- Co-op students earn 2 academic credits for each semester of co-op, and are considered continuously enrolled students while on assignment.
- The Co-op course is hosted in Canvas. All assignments are submitted through the online system. Students are able to connect with one another within the software.

Want to learn more?
Visit the Co-op Program’s website at http://www.mtu.edu/career/students/coops-internships/
