Complete the Academic Integrity Student Survey and have a chance to win one (or two) of 90 Michigan Tech gift cards valued between $5 and $100!

This is a voluntary, anonymous online survey open from Feb 11th through Feb 24th for all students, undergraduates and graduates. After completing the survey you can enter drawings to win Michigan Tech gift cards.

Survey Objective: Discover students’ perceptions and attitudes about the Academic Integrity climate at Michigan Tech.

Use of data: Find the best ways to educate the Michigan Tech community about Academic Integrity and behaviors that represent academic misconduct.

How to find the survey: A link will be sent to your MTU student email account via

How to enter the drawings: Once you’ve completed the survey, click on the link that appears.

Estimated time to complete: 15 to 20 minutes.

Chances of winning an incentive prize:1

- Probability of winning a $5 gift card is estimated to be 2.9%.
- Probability of winning at least a $25 gift card is estimated to be 0.8%.
- Probability of winning at least a $5 gift card is estimated to be 3.7%.

Incentive prizes: Two $100 Michigan Tech gift cards, eighteen $25 Michigan Tech gift cards, and seventy $5 Michigan Tech gift cards.

Drawings:

The drawings are NOT connected in any way to individual survey responses.

If you enter the drawings, we will only know that you completed the survey.

There are two different drawings.

A. Daily Drawing: After each day of the survey, five students who completed the survey on the previous day will be randomly chosen as a winner of a $5 Michigan Tech gift card.

B. Final Drawing: On the day after the survey ends (11:59 pm on Feb 24th, 2016), two grand prize winners and eighteen second place prize winners will be randomly selected from the entire drawing pool. Students who previously won a $5 gift card will NOT be excluded from the Final Drawing.

1 Assumptions and numbers used to estimate probabilities are provided at the end of the page.
The grand prizes are $100 Michigan Tech gift cards, and the second place prizes are $25 Michigan Tech gift cards.

If you win a gift card, you can collect it at the Office of Academic and Community Conduct in the 3rd floor of the Admin. Building. Your name will also be published in “Tech Today” as a drawing winner.

U.S. citizens and resident alien winners may be required to sign a Receipt of Compensation Form along with a W-9. You may also need to report this compensation as income when filing your tax return with the IRS.

Non-resident alien winners may be required to complete and sign the Receipt of Compensation Form and other documents required by Accounting Services.

The Assumptions and Numbers behind the Probability of Winning Estimations

Daily Drawing

- Estimated fraction of students completing the survey: $1/3$
- Total number of undergraduate and graduate students: 7242
  - Estimated number of students completing the survey: $7242 / 3 = 2414$
- Assumed an equal number of students complete the survey each day
- The survey is open for 14 days
  - Estimated number of students completing the survey each day: $2414 / 14 = 172$
- Number of winners selected each day: 5
  - Probability of winning a $5 gift card: $5 / 172 = 2.9\%$

Final Drawing

- number of prizes awarded: 20
  - 2 grand prizes ($100 gift cards)
  - 18 second prizes ($25 gift cards)
  - Probability of winning at least a $25 gift card: $20 / 2414 = 0.8\%$

As the Daily Drawing and Final Drawing are separate, independent events, the probability of winning at least a $5 gift card is $2.9\% + 0.8\% = 3.7\%$.
