Michigan Technological University
Enterprise Super-Senior Scholarship

ELIGIBILITY: This scholarship is available to any eligible senior student who is participating in the Enterprise Program as part of their undergraduate degree program at Michigan Technological University. The scholarship is intended for those students who have completed all of the required project course work, but would like to participate in the program for an additional semester. Students should enroll in ENG4961 (Project Work VII). If this course can be applied to the student’s degree, then the student is responsible for the associated tuition. For those students who can not apply the credit toward their degree, the Enterprise Program will make available up to ten $100 scholarships to be used as matching tuition dollars toward the cost of the one-credit project course. This scholarship option will be available to those students whose enterprise team agrees to pay the tuition credit balance, and will be awarded through a selection process administered by the Enterprise Governing Board. Students will be required to pay the tuition up front and can then request reimbursement from the Enterprise Program and their enterprise team anytime after the last official drop date of the semester (February 18, 2005).
APPLICATION PROCEDURE: Please complete the information below and return this form to the following address no later than January 14, 2005:

Industry Project Coordinator
College of Engineering
712 M&M Building
