Proposal 4-18
(Voting Units: Academic)

Proposal to Shelve the Computer Science – Secondary Education Concentration (SCS4)

Contact: Charles Wallace, Undergraduate Director
                Computer Science (wallace@mtu.edu)

1. **Full name of program to be shelved**
   B.S. in Computer Science - Secondary Education (SCS4)

2. **Final term program will be open for new admits**
   Spring 2017

3. **Plan to complete all enrolled and returning students**
   No student is currently enrolled in this degree concentration.

4. **Reason for shelving**
   A key component of the Secondary Education concentration is Michigan Teaching Certification in Computer Science. Since the State of Michigan is no longer providing such certification, the basic purpose of the degree concentration has disappeared. (The Teaching Certification in Computer Science offered by Cognitive & Learning Sciences is being shelved for the same reason.)

5. **Financial impact to the department and university**
   None
