David Watkins, Associate Director, SFI

**1. Full name of program to be shelved**

Graduate Certificate in Sustainability GC1(IGCS)

**2. Final term program will be open for new admits**

Fall 2020

**3. Plan to complete all enrolled and returning students**

There are currently several students enrolled in the program. The Sustainable Futures Institute will continue to advise enrolled students and teach certificate courses (or equivalent replacement courses) until all students graduate or transfer to a new certificate being proposed.

**4. Reason for shelving**

The Sustainable Futures Institute was not renewed and we are transitioning the IGCS to a 9-credit stackable certificate.

**5. Financial impact (if any) to the department and university**

There are no known financial impacts to the Sustainable Futures Institute or to the University.
