

The University Senate of Michigan Technological University

Proposed Updates for Senate Professional Staff Unit Designations

Proposal 61-21

(Voting Units: All)

Introduced by: Professional Staff Policy Committee

I. Introduction

The Professional Staff Policy Committee has completed an audit of professional staff units within the University and is proposing modifications to the existing structure of Senate Professional Staff Unit designations to reflect recent organizational changes.

II. Rationale

Since the last audit of Professional Staff Units (Proposal 8-20), there have been changes that necessitate an updating of unit designations. These changes include International Programs and Services now being housed in Student Affairs, and the creation of three new units, including the Office of Vice President for Diversity and Inclusion, the Department of Manufacturing and Mechanical Engineering Technology, and the Department of Applied Computing.

III. Proposal

Below are the affected Senate Professional Staff Units with the proposed designations highlighted. The Professional Staff Committee asks that these updates be approved by the Senate.
